AB InBev Digital Hub

Prague, Czech Republic

**Subject: Application for Internship in IT, New Tech or Digital Transformation**

Dear Recruitment Team,

I am excited to apply for the IT, New Tech, or Digital Transformation internship at AB InBev's Digital Hub in Prague. As a Data and AI Engineering student at Polytech Nantes, I am eager to contribute my technical expertise and problem-solving skills while immersing myself in the dynamic learning environment AB InBev offers.

Currently, I am a Data Engineering Apprentice at Naval Group, a global leader in defense and naval engineering. In this role, I design and deploy dashboards using Qlik Sense, optimize data pipelines, and collaborate with cross-functional teams to enhance operational decision-making. These experiences, combined with my strong academic foundation in Python, SQL, and algorithmic modeling, have equipped me to tackle challenges in digital transformation and IT innovation effectively.

I am particularly drawn to the emphasis AB InBev places on professional development during this internship. The opportunity to gain hands-on experience, collaborate with international teams, and participate in mentorship programs aligns perfectly with my goal of applying my knowledge in a global context while continuing to grow as a professional.

Beyond my technical expertise, my role as president and treasurer of my school's beer appreciation club allowed me to develop leadership and organizational skills while fostering a sense of community. This experience deepened my appreciation for beer culture and AB InBev's iconic legacy. I am inspired by your commitment to sustainability, innovation, and building meaningful connections—values that I strive to embody in my own journey.

Joining AB InBev represents not just a chance to contribute to impactful projects but also an incredible opportunity to learn from your diverse and vibrant teams. I am eager to leverage my skills and enthusiasm to support your digital transformation goals while embracing the learning opportunities this internship provides.

Thank you for considering my application. I look forward to the possibility of contributing to AB InBev's success and discussing how my background aligns with your vision.

Best regards,

**Guillaume Cros**
